TalentSprint graduates make it big in the industry

TalentSprint (TS), a training centre on the lines of a finishing school, held its inaugural Graduation ceremony at the Indian School of Business (ISB) to felicitate 168 'Sprint' students who graduated this quarter.

These graduates underwent experiential learning programmes in Software Testing and Software Engineering.

US Consul General in Hyderabad, Cornelis. M. Keur was the chief guest at the ceremony. More than 85 per cent of these graduates now work with large multinational corporations which include Ap-

Industry estimates expect 1 lakh jobs at the entry level in the banking sector and 1.6 lakhs in IT

pLabs, Polaris, MITS, Virtusa, and Ivy Comptech. J. A. Chowdary, Executive Chairman of TalentSprint said the graduates were performing at par with experienced professionals in many organisations.

Santanu Paul, CEO of

TalentSprint said, "We are gratified by the affirmation we have received from the industry in terms of business value, social relevance and the quality of our transformation programs." TalentSprint's industry programmes create entry-level professionals for the IT and BFSI sectors.

The company expects large scale demand for trained and certified fresh graduates.

Industry estimates show that there will be a gap of more than 1 lakh jobs at the entry level in the banking sector and 1.6 lakhs in the IT industry in the coming years.
