

Talentsprint is an emerging leader in creating high performance professionals for the global industry through fast-track transformations. Focused on IT and BFSI sectors, Talentsprint has developed experiential learning programs that are based on industry-designed curriculum and are backed by national or international certifications. Taught by global professionals with deep technical expertise and decades of international industry experience, the programs are focused on professional education and competency development applicable in the workplace immediately.

Talentsprint offers a wide variety of programs from foundation courses for entry-level professionals to continuing education workshops for experienced professionals. The programs include in-depth domain and technical training as well as structured business communication and leadership development. The company has a unique consultative and collaborative approach to partner with corporations, and deliver experiential learning programs that can dramatically improve productivity, performance, and client delight.

Founded by world-class industry professionals and entrepreneurs, Talentsprint has the privilege of serving firms such as AppLabs, Polaris, Virtusa, coMakeIT, IBM, Maveric, Central Bank of India, State Bank of Hyderabad, Andhra Bank, and Dhanlaxmi Bank since its inception.

**Madhu Murty Ronanki***President*

Madhu is responsible for designing and delivering training programs aimed at developing applicable skills for software testing practice. He inspires fresh graduates to become skilled testing professionals.

Over the past twenty years, Madhu has focused his attention on building strong delivery and testing capability organizations. Prior to TalentSprint, Madhu headed Accenture's Testing Practice in India with more than 3600 test practitioners in multiple locations across the country. Apart from building Accenture's testing competency, he played an active role in pitching to large enterprise clients and helping delivery managers drive their testing engagements. Madhu also served as the SVP Technical Services at AppLabs where he headed worldwide delivery of the world's largest independent software testing services company with more than 1500 resources under him. Madhu headed Virtusa's Global Testing Practice between 2000 and 2005, and was also the Delivery Head for Virtusa's BFSI delivery unit. Before Virtusa, Madhu was the Head of Product Testing at Baan, an ERP product company based out of Netherlands.

Madhu holds a B. Tech in Electrical Engineering from JNTU, Hyderabad.

Asokan Pichai*Senior Vice President, Learning and Development*

Asokan heads the design and delivery of Software Engineering Programs and oversees the development of instructional materials. He also teaches Problem Solving Techniques and Program Design- the first module of the Software Engineering Programs.

Asokan has more than 25 years of experience in hands-on software development, training and senior level management. Asokan held leadership positions such as CEO of MinVesta, CTO of Ma Foi, Chief Trainer at Virtusa, and Director - Technical of Brilliant's Computer Centre.

Asokan is passionate about Instructional Design. He headed the Curriculum Development Department at Brilliant's Computer Centre from 1989-1994. In his role as the Chief Trainer at Virtusa, he was responsible for selecting and training fresh graduate engineers - both on-campus and off-campus. He oversaw the design and delivery of the courses as the Head – Technology and Career Training at Ma Foi from 2004-2006.

He is a consultant with FOSSEE, Bombay where he is leading a team in designing and developing courses and teacher's training programs for engineering curriculum. In his career, Asokan has trained more than 1000 software engineers, designed more than 25 courses, and conducted Train the Trainer programs for more than 300 trainers, and nearly 100 instructional designers and developers.

Asokan is a certified MBTI Administrator and has gone through the TA101 - the first course in Transactional Analysis. He uses these as a platform for training and coaching.

**Jitendra Singh***Chief Technologist*

Jitendra oversees the design and implementation of technology solutions for real-time delivery of interactive classroom sessions in multiple locations. He is also working towards identifying the business processes which can be streamlined using open source software and technologies.

From 2006- 2010, Jitendra served at Kenexa, a leading provider of HR software and services. He was part of the core team which re-designed and successfully delivered the product to many live customers.

He was responsible for creating critical components including core workflow module for the next generation of software products. He also led a team responsible for large scale performance improvement of the live product. Jitendra started his career at Virtusa and rose to the role of Lead in less than 3 years. At Virtusa, he had the opportunity to work for various clients in hi-tech business unit including BPM Leader PegaSystems.

Jitendra has a B. Tech from IIT Kanpur.

Rita Ashar

Principal Consultant, Software Engineering Practice

Rita Ashar is a Principal Consultant with the Software Engineering Practice. If students are successful at writing and running programs, and are able to learn something new on the topics taught in class by doing some R&D of their own, she considers her class a success.

Rita has more than ten years of experience in Training and Consultation. Prior to joining TalentSprint Rita Ashar worked as Competency Manager- Java at SQL Star, Team Lead at Aptech and Java Faculty member at NIIT. She is enthusiastic about the ways in which technology has made our lives easier and is always eager to learn about new Java and open source technologies. Rita has been associated with some of the most prestigious clientele in the industry including Intergraph, Idea Cellular, Oracle IDC, Satyam, Wipro, IVY Comptech, Infosys, RBS and Informatica.

Rita is a Sun Certified Java Programmer in Java 2 Platform Standard Edition and has had practical exposure to application servers such as Sun One, Weblogic, Tomcat, Apache, HTTP, JBoss and Web Sphere. Her areas of expertise include technologies such as Java, J2EE, EJBs, JMS, Web Services, AJAX, JSF, Hibernate, Spring, Architecture, Design Pattern, ADF, OA and EAI.

She was a Speaker on Using Java EE Patterns in Architecting and Designing robust Java EE applications in Suntech days-2007 (Sun Microsystems event).

Vathsala Narasimman

Head – Business Communication

Vathsala heads the Business Communication Group at TalentSprint. Vathsala started as a Freelance English Trainer. She has developed an inspirational style deploying simple yet effective methodologies and styles for teaching English to non-native adults.
